

ForTec Litho: Physician Partnership Advantage

A physician partnership with ForTec Litho* allows you to focus on patient care, while we manage all equipment, technician support, and logistics related to ESWL services. All elements of The ForTec Advantage are aimed at positively impacting your practice:

Advantage: Quick response

- Providing 24/7 phone support to coordinate the dynamic scheduling of cases, even in emergent situations

Advantage: Distinctive service

- Bringing you qualified experts, like our certified and experienced radiology technicians who participate in ongoing ARRT-approved continuing education
- Offering the industry's most technologically advanced equipment, including the Dornier Compact Delta® and Storz Modulith SLX-F2
- Maximizing up-time through factory-trained service engineers

Advantage: True partnership

- Managing all aspects of the venture, including establishment of legal entity, financial management and reporting, and outcomes monitoring
- Complying with industry best practices, ethical principles, regulations and laws

Advantage: Maximized investment

- Focusing on high-quality service and efficient logistics, creating increased opportunity for physician partners

Our Physician Partnership Advantage program is designed to meet the needs of your patients and ultimately your business. ForTec Litho's commitment to the betterment and advancement of the urology community will provide the insight and support you're looking for in a long-term partnership.

*ForTec Litho is a Limited Liability Company (LLC)

**“The ForTec team
combined real expertise
with hard-working
dedication to make
our lithotripsy program
a real success.”**

**– Dr. Daniel Cohen, Urologist
Orlando, FL**
